Such a work is The New Standard American Encyclopædia in eight large quarto volumes, and which subraces the substance of all the other encyclopædia, beddie a very large amount of new up-to-date matter none of them contain. It is introduces a vast number of new words, names, facts, ideas, inventions, methods and developments. It treats, in all over 6000 to them contain. It introduces a vast number of new words, names, facts, ideas, inventions, mover. One of the "istandard American" have also lariebly embellished the new work. The publishers of the "standard American" have also lariebly embellished the new work. There are over 3,500 illustrations, which cover every conceivable subject, leading new interest to the descriptions, and forming anuccession of piesaing surprises. It also contains over 500 colored maps, charts, and diagrams, and constitutes a complete stales of the world such as no other encyclopædia has undertaken to present. This feature will be found of the highest value in the education of the young, for a distinct facination for the young, for the pictures and colored maps will have a distinct facination for he young, for the pictures and colored maps will have a distinct facination for he young, for the pictures and colored maps will have a distinct facination for he young, for the pictures and colored maps will have a distinct facination for he young, for the pictures and colored maps will have a distinct facination for he young, for the pictures and colored maps will have a distinct facination for the them, who is called upon to at once answer all sorts of questions; the tolling student and inquiring shola, at home or the deak, will find in the new work the most new full and practical library in the world for quick and ready reference on all subjects. One who owns it the world for quick and ready reference on death and inquiring shola, at home of the deak, will find the new work the most new the facing the picture

jects. One who owns it will possess the equivalent of a score of other reference books which would cost many times the price of this.

Another feature in which the new work stands absolutely alone, is in its year full appendixes, which embrace over 100 subdivisions, including a Biographical Dictionary, an Dictionary of the Control State of the

Wanted-An Idea Who can't

Governor Bradley has adopted a new rule. Every application for partion and all papers connected therewith must be in writing. He will hold no more per-sonal inteviews on the subject, and will make no exceptions for any one.

A movement is on foot among a num-her of Cinclonati merchants to reduce the number of traveling salesmen by offering inducements to customers in adjoining states to visit that city and fook over the goods in stock. Railway fare both ways and hotel expense will be paid by the merchants to all who accept their invita-tion.
